CYLINDRICAL GRINDERS

Beyer rotary grinder CNC Ø 600 mm

Brand: Beyer · Type: rotary grinder CNC Ø 600 mm

SURFACE GRINDERS WITH VERTICAL SPINDLE

Length	**2700 mm**	Depth	**2400 mm**
Height	**1800 mm**		

DESCRIPTION

Magnetic table: Ø 600 mm

with CNC touchscreen control

These models are well suited for efficient, economical processing of circular work pieces via surface and step grinding operations. There is no lost time through deceleration, acceleration and reversal as with conventional reciprocation grinding. The grinding wheel remains in contact with the work piece throughout the grinding process. Single workpieces can be located centrically on the table while multiple workpieces can be located concentrically to optimize table space utilization.
