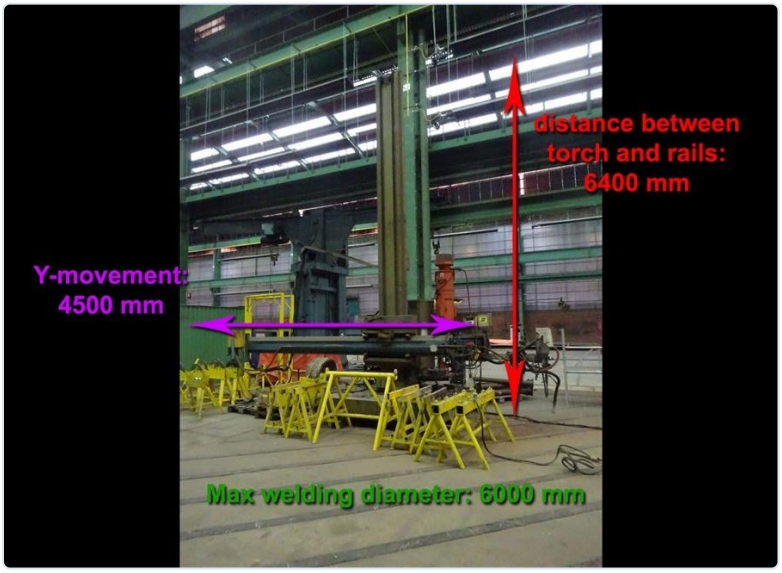
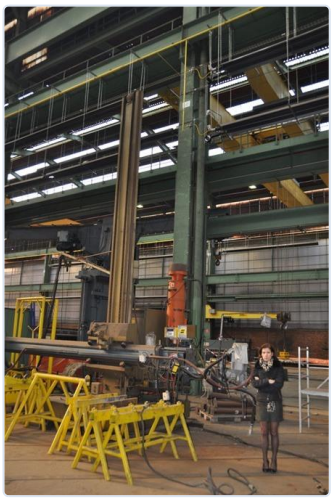
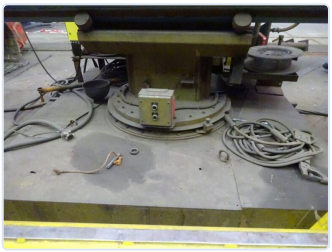
TURNING GEARS - POSITIONERS - WELDING DERICKS & -PINCHTABLES

Esab Weldingcrane for composite beams/tanks

Brand: Esab Weldingcrane · Type: for composite beams/tanks







TECHNICAL SPECIFICATIONS

Specifications on request.

DESCRIPTION

Reconditioned in 2008 with new motorized welding support + control: >> Esab A2-A6 process controller Selectable welding process with pre-setting of all welding parameters (memory for 255 parameter sets). Constant current or constant wire speed. Very user-friendly.
>> Esab LAF 1000 amp DC source The LAF series are 3 phase, fan-cooled DC welding power sources designed for high productivity mechanized submerged or high productivity MIG/MAG arc welding.
Overhaul cost in 2008 was €75,000
Application is submerged arc welding Unit is movable on rails and the column is also turnable
