WARM & COLD FLOW FORMING PRESSES

Laufer URA 500 ton for composite mat.

Brand: Laufer URA 500 ton · Type: for composite mat.

TECHNICAL SPECIFICATIONS

Specifications on request.

DESCRIPTION

Formerly used to manufacture flowerpots using composite materials. > step 1: wood granules are heated in dia under high pressure > step 2: flowerpots are pressed during heating cycle, cooled down afterwards and automatically unloaded

Can be used for composite materials / plastics with heating & cooling.
Equipped with auto turning tables for 4 die blocks Original cyclus: 1 - filling 2 - pre pressing 3 - high pressure pressing at 300° C 4 - after pressing & cooling
consisting of flow hopper with 2 supply lines on Awema weighing system max retracting force 25 kN max lift: 400 mm built-in height: 1000 mm max pressure: 285 bar 380V - 175 A - 114 kVa with Rexroth hydrauliq aggregate and extraction hood
