LASERSNIJMACHINES

Adige Lasertube LT 651 CNC

Merk: Adige · Type: Lasertube LT 651 CNC

LASERSNIJMACHINES

Max werkstuk afmetingen	**Max Ø 120 mm x 6500 mm**	Merk laserbron	**Rofin Sinar**
Vermogen	**2000 W**	Besturingstype CNC	**Siemens Sinumerik**
Langsbeweging X-as	**6500 mm**	Dwarsbeweging Y-as	**170 mm**
Hoogteverplaatsing Z-as	**80 mm**	Verplaatsing snelheid	**90 m/min**
Nodig vermogen	**50 kW**	Lengte	**8531 mm**
Breedte	**4590 mm**	Hoogte	**2743 mm**
Gewicht	**10000 kg**	Beladingssysteem	**Yes**

BESCHRIJVING

The Lasertube 651 laser cutting system is ideally suited to laser working of ROUND, SQUARE RECTANGULAR and OVAL tubes in a range of materials including mild steel, alloy steel, stainless steel, titanium, aluminium and copper. A great advantage of the lasertube 651 is its processing flexibility thus permitting to carry out operations both on ends and along the tube as well. It is possible to perform an the same stock lenght of tube, in addition to the conventional cutto lenght, any combination of holes, slots or contoured cuts and other operations automatically. cap: Round Min 16 mm - Max 120 mm Square min 16 x 16 mm - max 100 x 100 mm Rect Min 30 x 15 mm - max 120 x 70 mm Oval min 30 x 15 mm - max 120 x 70 mm
