ROLLENWALSMACHINES & PLATENWALSMACHINES

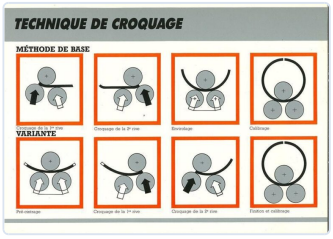

# Picot RCS 3100 x 12 mm

Merk: Picot · Type: RCS 3100 x 12 mm

## ROLLENWALSMACHINES & PLATENWALSMACHINES

| | | | |
|---|---|---|---|
| Aantal rollen | **3 rolls** | Rolcapaciteit koud | **3100 x 12 mm** |
| Diameter bovenrol | **235 mm** | Motorvermogen | **7,5 HP** |
| Lengte | **4500 mm** | Breedte | **1100 mm** |
| Hoogte | **1300 mm** | Gewicht | **6,5 ton** |

## BESCHRIJVING

Hydraulic bending - pyramid type

The top roll can be moved horizontally or with a variable and controlled slope, inner or outer-cone allowing for perfect cylindricity of sheet and also produce conical workpieces. Fitted with optional profile bending system.

- conical bending
- all three rolls are driven = no slippage of workpiece

Machine also features a Picot section bending machine!

Cap example: 6 mm thickness at 1000 mm rolling diameter
